SUMMARY

Enthusiastic Frontend Developer with 2 years of experience, driven to create and sustain web applications. Skilled in HTML, CSS, JavaScript, and Typescript, with a strong command of MVC architecture and proficiency in leading frontend frameworks such as React and Vue. Actively searching for a vibrant team to contribute my abilities towards propelling the organization's achievements.

EXPERIENCE

Nov 2023 – Present

Frontend Engineer
Crafter
Contributed to the development of Crafter's web application, leveraging AI technologies to enhance product processes. Spearheaded the implementation of a ticket generation system, automating the creation of tickets for product teams.

July 2023 – Nov 2023

Frontend Developer
TxE Africa
Developed *TxE Africa*'s website, incorporating an advanced event registration system facilitating seamless user registration for events. Implemented a unique QR Code assignment mechanism for each user, streamlining event access and management processes.

Nov 2022 – June 2023

Frontend Developer
Genesys Tech Hub
Integrated Web 3 technologies into the Medical Health Records System, *VITALS* web applications with Ethers.js, Web3.js, and Smart Contracts to provide security for patients and doctors records.
